EFFORT BEING MADE TO KEEP LETHBRIDGE MINE OPEN

Miners' Union of Canada, interviewed Premier Reid Monday.

Edmonton, Jan. 28.—In an effort to prevent the closing down of Mine No. 6 at Lethbridge on February 1st, as contemplated by the Canadian Pacific Railway, which company owns and operates the mine, a large delegation from that city and representing the

Government intervene in this matter and assist in the movement to have the mine remain in operation, providing employment for residents, in that locality. Representations of the delegation were heard by Mr. Reid, who promised an investigation into the problem.

GIRL GUIDE LEADER TO VISIT COLEMAN - BELLEVUE

Miss Williams, from Dominion headquarters, will be in the Pass on Friday and Saturday, February 1 and 2, to hold training classes for leaders in all branches of Guide work.

The meetings have been arranged as follows: Friday—United church hall, Bellevue, 2:30 and 7:30 p.m. Saturday—Art Hall, Irish hall, Coleman, 2:30 and 7:30 p.m.

A banquet will be held at the Grand Union hotel, Coleman, on Saturday night at 6 o'clock. Tickets 10 cents.

All leaders and prospective leaders are urged to attend, and those interested in Guide work will be welcomed.

HARRIET M. BURDEN,
Division Commissioner.

MEDICINE HAT MONARCHS CLAIM DEPRIVED TWO GOALS

The following extracts are taken from a report of last Saturday's hockey tilt contained in the Medicine Hat Daily News:

Ten minutes of overtime play failed to break the 2-2 deadlock in the Crows Nest league game between the Monarchs and Blaimeore Bears at the arena Saturday night. As a result of the draw, the Monarchs dropped to second place in the league standing, one point behind Lethbridge Maple Leafs. Over 1,500 fans were on hand to witness the hectic combat, the majority of whom are convinced the Monarchs were robbed of two goals in the third period, which the Blaimeore referee disallowed. As far as they could see there was no reason why he should refuse to recognize the tallies, as the goal judge was positive the puck entered the net on both occasions. There was no kick against the Blaimeore players, who played a hardy defense game against the Monarchs' power plays, while seizing every opportunity to break away with dangerous salutes on the Monarchs' citadel.

Kemp, Cerny and Cecinni were the main threats in these flashing counter attacks; while in goal McPhail put up a wonderful performance in defense of his net. Frequently when the Monarchs looked like scoring the defense men blocked the goal mouth by kneeling or laying on the ice with the goal tender, which made it almost impossible for the Monarchs to drive the rubber into the cage. A great part of the play was at the Blaimeore end with the Monarchs fighting hard to get into scoring position under the fierce checking of the stubborn Blaimeore defense.

In the opening of the third period, the Hatters steamed in on McPhail, Simmons taking the pass to whang the rubber at the cage. McPhail cleared the puck forward and a scramble followed. Quail sailed into the menses, grabbed the loose puck and shot it into the net. The red light went on and referee Stella skated up and said it was no goal, although the goal judge insisted the rubber had gone into the cage. Later the Monarchs broke away and forced McPhail to come out to clear. Melbourne shot to one side of the net and Quail went in after the rebound. He grabbed the rubber, went behind the cage and passed to Melbourne, who slammed it past McPhail. The red light went on and again Stella skated up, ignored the goal judge's statement that the puck had gone into the net and declared it to be no goal. Then Pozzi was sent to the cooler for two minutes. The Monarchs, realizing they had to beat the referee as well as the Bears, opened up at such a furious pace that they crumpled the Bears' defense.

Mrs. Maude Henderson, charged with the murder of her husband on June 26th last, was found not guilty on account of insanity. She will be kept in custody at Ponoka.

"DICK" HARPER INSTALLED HEAD OF LOCAL "BILLS"

There was a large attendance at the regular meeting of Blaimeore Lodge No. 15, B.P.O.E., on Tuesday night, when the officers for the ensuing term were duly installed by Bro. F. Kellcutt, D.D.G.E.R., assisted by Bro. L. Kellcutt and S. Dickey, all of Granum.

The new officers are: E. A. Harper, exalted ruler; J. R. McLeod, I.P.E.; Sidney White, leading knight; Harry Stobbs, loyal knight; Harvey Carmichael, lecturing knight; W. A. Bole, treasurer; John A. Kerr, secretary; Mark Sartorius, inter guard; Robert G. Tyler; George McLean, ex quiet; E. W. Harold Pinkney, chaplain; C. J. Tompkins, C. Sartorius and W. H. Chappell, trustees.

Following the installation ceremony, Immediate Past Exalted Ruler J. R. McLeod was presented with a past ruler's jewel by Bro. Kellcutt on behalf of the lodge.

Following a few speeches, the meeting closed and refreshments were served.

ENDS LIFE WITH BULLET AFTER TAKING DOSE POISON

William Yates, aged 67, World War veteran and formerly employed as lookout man in the provincial forestry service, was found dead in his shack east of Crows Nest Lake on Sunday.

A note indicated he had tried to end his life by poison, owing to suffering from the extreme cold, and the poison failing to act, he intended to send a bullet into his body below the heart. In the note, he wished good luck and good-bye to his friends.

Funeral takes place at Coleman this afternoon, the remains being laid to rest under semi-military auspices.

MUSIC TEACHER

KILLED BY CAR

Miss Kate McKill, 50, music teacher, 725 Broughton street, was almost instantly killed at 6 p.m. Saturday, when she was terribly crushed by a runaway motor-truck at Broughton and Robson streets. Her body was removed to the city morgue to await an inquest.

According to the police, the truck, which was in charge of Michael Sakowski, 3818 Union street, was left parked in the 1300 block Robson street while the driver made a delivery of bread to a store there.

As he left the store to return to the truck he saw it running backward on Robson street, which dashes steeply toward the west at that point.

Miss McKill was walking on the south sidewalk of Robson street just west of Broughton street as the truck, quickly gathering speed, came toward her. Twenty-five feet west of Broughton street the vehicle mounted the curb, struck her and came to a stop as it crashed into a tree. The woman had been crushed against the tree.

Witnesses ran to assist her and found her terribly injured. They called police and an ambulance, and she was removed to St. Paul's Hospital where she was pronounced dead. She had received head injuries, all her limbs had been broken and her body crushed and mangled.

Miss McKill had been employed as music teacher at the Dawson school. An investigation as to the cause of car running away is being made by traffic division officers.—Vancouver Province.

Mrs. McMillin resided in Blaimeore for a couple of years, leaving here in the fall of 1930 for a visit to her home in England, later returning to Vancouver to reside.

Gordon Thompson and Betty Davidson left today for Cranbrook. They have arranged to appear here again on Monday night next. Lovers of fancy skating please hear this in mind.

BLAIRMORE UNITED CHURCH

Rev. Albert E. Larke, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, February 3rd,

the minister in charge.

2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, D.A., Rector

Services Sunday, February 3rd:

Sunday School at 10 a.m.

Morning service at 11 o'clock.

The Bible class will meet every

Thursday in the church at 7:30 p.m.

Everyone welcome.

UNITED CHURCH HOLDS

ANNUAL CONG. MEETING

A very enthusiastic annual meeting

of the members and adherents of the Blaimeore United church was held following the regular service on Sunday evening, when reports from the Sunday schools and all other departments were received and adopted.

The minutes of last annual meeting were read by the secretary, Mr. S. McDowell, and adopted.

Most important of reports received

was that submitted by Mrs. J. Patterson on behalf of the Ladies' Aid, which gave evidence of unusual activity and success during the past "depression" year.

The election of members of the session included the addition of Mrs. W. Oliver for three years, and Mrs. John Roberts for five years.

The official board of ten members was selected from a slate of twelve candidates.

As chairman, Rev. A. E. Larke appealed for volunteers to assist in the work of the Sunday school. Leaders were the great necessity.

WORLD HAPPENINGS BRIEFLY TOLD

David Lloyd George, war-time prime minister, celebrated his 72nd birthday at Bangor, Wales, by launching his "new deal" plan for Great Britain.

The council of the League of Nations took indirect notice of rumors that Japan is fortifying the former German islands in the Pacific which it holds under lease mandate.

Moser W. C. Littleton, of Calgary, has been elected president of the Alberta Military Institute. Col. D. W. B. Spry, commanding military district 13, has been appointed honorary president.

The Montreal Star has celebrated its 66th birthday, still under the ownership and management of the Lord Atholstan who founded it as a daily newspaper two years after Confederation.

The conference of the Associated Australian Chambers of Commerce resolved to press for an early empire conference to arrange for a new inter-empire trade agreement to operate when the Ottawa pact expires.

A resolution asking the Dominion government to appoint a trade commission to Jerusalem, was passed at the final session of the 24th convention of the Canadian Federation of Zionist Societies held in Toronto.

A survey of Canadian natural resources so they may be viewed in relation to the requirements of the Dominion and world demand, is urged in the 17th annual report of the national research council tabled in the House of Commons.

The government has passed an order-in-council which abolishes all positions in the government service vacant on February 1. The action is merely a "cleanup" of surplus posts within the service. If any of the posts abolished are needed they will probably be re-created.

Play Produced By Indians

Director, Artist, And All Actors Belonged To Reserve

Five years in the production, "The Last Great Indian Council," a pageant of Indian history in Canada, was presented by the Indians of Muskawpeting reserve in the Muskawpeting community hall, nine miles north of Edenwood, Saskatchewan.

The production, showing a phase in Canadian history, was produced by Pat Cappo, a reserve Indian, and the entire cast of actors were Indians, Harry Carrier, Indian artist who did all the scenery, has never been to school in his life. J. Ananad, a third Indian, directed the presentation.

F. W. Ueckert, Edenwood, in chairman's remarks, pointed out that the production, in seven acts, presented true phase of life in Canada.

Unusual Auction Sale

Two Sets of Second-Hand Teeth Sold For Dollar

During the more than 300 years history of the Annapolis Valley there have been many unusual auction sales but perhaps none has been so extraordinary as that which took place in the municipal court, town of Berwick, Nova Scotia.

The goods had been seized by plaintiff and when defendant did not pay amount due within the specified time the articles as listed below were sold:

One set of artificial teeth, second-hand (upper plate), four gold teeth, suitable for a young man.

Also part of an old upper plate of artificial teeth.

The entire lot sold for one dollar.

The normal duty on Canadian wheat imported into the United States is 42 cents per bushel.

Fine Spirit Of The West

Speaker Tells Of Courage Of People In Drought Areas

Admiration for the hard and courageous spirit displayed by the people in drought areas of Western Canada was expressed at Ottawa by Rt. Rev. James S. Shortt of Barry, Ont., moderator of the general assembly of the Presbyterian Church in Canada.

Appearing twice in Ottawa pupils to relate experiences of his trip as moderator from the Atlantic to the Pacific, Dr. Shortt told of travelling through the drought areas.

There he had found little but desolation. Great efforts were being made to supply the people with the very needs of existence.

He had heard complaints and criticisms about the inequitable distribution of food and clothing and the methods of distribution, and he had a talk with Premier J. G. Gardiner of Saskatchewan, concerning the moving of the people to other areas. It was decided, however, that it was better to leave them where they were.

With an abnormal snowfall this winter people were looking ahead with optimism to a good summer as there would be more moisture than usual.

Used Typical Methods

Soviet Had Good Idea When Digging Subway

Moscow's underground railway, which has just carried its first experimental train, has been constructed by typical methods of "Socialist competition."

I was in the Soviet capital two years ago, when the first shafts for the railway were being sunk.

Above the boardings that screened each scene of activity towered what looked like a giant thermometer. It was a graduated board on which a pointer indicated day by day the depth to which the shaft had been sunk.

Every passerby could thus see which of the gangs were digging hardest—and which required the stimulus of a "shock brigade"—London Daily Telegraph.

FASHION FANCIES

961 CUTE SIMPLE-TO-SEW DRESS FOR YOUNG GIRLS TO ALLOW PLENTY OF LEG SPACE WHEN SHE FLIES ABOUT

By Ellen Worth

Lots and lots of washing frocks are tiny tots need—simple ones of course!

Isn't this the cutest style ever? The tummy falls so prettily from the shoulders. The little sleeves are cute.

And to make it! Practically a front and back section to be joined. The pattern is given for the size that wears for every day and a day is sketched. It may be pale blue, pink or green. The plaited rill in white lawn which gives a very dainty trim, dimity, or gingham is another darling scheme.

Dimity prints, pastel voile or organdie, gingham, checked lawn, etc. are all right.

Style No. 961 is designed for sizes 2, 4 and 6 years. Size 4 requires 1½ yards of 35-inch material with 2 yards of plaiting and ¾ yard of ¼-inch ribbon.

Cost, 25¢ per yard. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

You can get very smart wardrobes at little expense of time and effort—our attractive Book of Fashions (price 20¢) is just bulging with ideas that you can turn into charming wearables. Send for your copy today.

"How to Make Better Dresses" booklet; a helpful guide to sewing, is obtainable for 20¢. Whether you are a beginner or think adept with the needle, we think it would pay you to obtain a copy.

Royal Bank of Canada Presents Strong Statement

Morris W. Wilson, President and Managing Director, Notes Distinct Improvement in Business—Looks Forward to 1935 With Confidence.

Sydney G. Dobson, General Manager, Reviews Financial Statements—Reports \$50,000,000 Increase in Deposits

At the Sixty-Sixth Annual Meeting of The Royal Bank of Canada, held in Montreal, Morris W. Wilson, President and Managing Director, paid tribute to the distinguished service rendered to the bank by Sir Herbert Holt, who had presided at successive Annual Meetings. Sir Herbert, whose outstanding ability and prestige have been important factors in the sound and consistent growth of the bank during his reign.

In commenting on the strong statement presented to the meeting, Mr. Wilson said that it reflected a year of operations under distinctly improved conditions.

Referring to the recent revision of the Bank Act and the incorporation of the Bank of Canada, he stated that at the public hearings preceding these discussions, the banks were asked to justify their administration of the new "New Deal" in the United States, or financial experiments in other parts of the world, may provide greater opportunities for profit.

Referring to taxation, Mr. Wilson said:

"For every dollar paid in dividends last year we paid sixty-seven cents in Canadian taxes. This does not take into account the income tax paid by our shareholders themselves on dividends received from the Bank. Clearly these figures require no comment."

In discussing the improved conditions in Canada, Mr. Wilson pointed out that during the past year manufacturing and employment have increased to the levels of 1929. The result of this is a substantial increase in the new year conditions, both at home and abroad, favor a continuation of this upward trend. He pointed out that in Canada there remain a number of difficult problems for which practical solutions are necessary, but he believes that Canadian industry has the courage and the ability to solve such problems in a rational manner. It is upon the basis of past performance that I look forward to 1935 with renewed confidence."

GENERAL MANAGER'S ADDRESS

In his address, Mr. S. G. Dobson, newly appointed General Manager, referred to the very satisfactory financial results of the Balance Sheet presented. He said in part:—"After several years of decline, following the general depression, the wheat crop of 1933 was, unfortunately, higher prices prevailed. The value of field crops had increased over \$100,000,000 and the enhanced steel production, the output of automobiles, textiles and electrical energy had increased and the value of exports notably lumber and minerals was advanced substantially. The wheat crop of 1933 was, unfortunately, higher prices prevailed. The value of field crops had increased over \$100,000,000 and the enhanced steel production, the output of automobiles, textiles and electrical energy had increased and the value of exports notably lumber and minerals was advanced substantially. ROYAL YEAST CAKES
give you breads
in tempting
variety . . .

Try your hand at this simple recipe for delicious homemade bread—page 8 of the Royal Yeast Book.

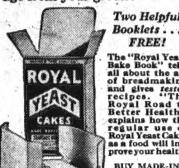

Breakfast fit for a king! Make this Coffee Cake—page 12, Royal Yeast Book.

Watch these Bacon Buns disappear when the children find them. Recipe on page 13, Royal Yeast Book.

THESE famous yeast cakes have been the standard of dependable quality for over 50 years. Today they come to you specially sealed in individual airtight wrappers, assuring you full leavening power no matter how long you keep them. Follow the choice of 7 out of every 8 Canadian housewives who prefer Royal Yeast Cakes where dry yeast is used for home baking. Order a package from your grocer.

The "Royal Yeast Book" tells all about the art of breadmaking and gives many delicious recipes. "The Royal Road to Better Health" explains how Royal Yeast Cakes help you to stay well, prove your health.

On University Senate

Principal and Dean Of Regina College Included in Personnel

The principal and dean of Regina College have been included in the personnel of the senate of the University of Saskatchewan by amending legislation to the University Act, introduced in the house by Hon. J. W. Estey, K.C., minister of education.

At present Dr. E. W. Stapleford is principal of the college and Professor W. Ramsay, dean.

"The object of saving is to spend due time."

Tested Eczema Remedy

By Dr. D. Dennis

Your skin trouble—whether it is eczema, acne, hives, dandruff, ringworm infection or pimples and blotches—will be positively benefited by D.D.D. because D.D.D. is a tried and tested remedy. Dr. D. Dennis, the author of "Physician's Remedy," the D.D.D., was developed originally for his own patients by Dr. D. Dennis. It is now manufactured by the makers of Wincarnis' Italian Balm. In 35 years D.D.D. has brought clear, healthy skin to millions. As druggists, trial size is guaranteed to give instant relief or money refunded.

THE TENDERFOOT

By
GEORGE R. RODNEY
Author of "The Coronado Trail",
"The Canyon Trail", Etc.

SYNOPSIS

"You've fallen into a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is dead and buried in the hills."

Dad Kane, derelict rail and luckless prospector till now is returning to tell Dustin and Spike Goddard, owners of the Broken Spur ranch, who had grubbed up his claim of discovery of a rich gold mine, and shows samples of the ore. He sees Broken Spur men rustling Hough-glass cattle and propane teams again.

From one of Dustin's cattle, stealing activities was accidentally discovered by Stone, who accompanied by Edith and Carl, rode far to a lonely way from the trail of the miners.

Dustin unexpectedly comes along and seeing their stops and talks to Edith. He mentions the Soda Springs dispute and asks her to intercede with him and Edith refuses his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Stone calls on his foreman, about his meeting with Dustin, and is warned that Dustin would kill him if he got the chance. Stone and Crewe go to Stone's to find the trail leading to Gerald Keene. While at Stone an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with the Kanes to find the trail of his gold discovery and appraise its value. Dad Kane shows Dustin the mine and samples of the rich ore he took from it.

They go back to camp, and Dustin shoots Kane. He fixes the shooting on Peysi Gregg, a drug addict, who, stupefied by the narcotic he had taken, did not know he was being guilty or not. They bury Kane and then return to the Broken Spur ranch.

Meanwhile at the Hour Glass, Carr, Crewe and Stone grieve as to the fate of Dustin in the broken neck belonging to Duro Stone that Stone had found. Stone thinks of a possible solution, and, accompanied by Carr, rides out to Red Water to test out his theory.

(Now Go On With The Story)

CHAPTER X.—Continued

"Seven what?" she demanded. "What was he measuring by?"

Stone dragged out his watch, laid it on a rock and deliberately set about rolling a cigarette.

"It may be all right," he said. "I may be just a foot but it occurred to me . . . Well! Listen! . . . never carried any measurin' tape line. He probably doesn't even use a watch.

"You mean . . ." The red head flung high in wrath. "You mean that you came as a spy in the camp to find out if the Hour-glass is honest . . . ?"

"Do I mean that? You listen to me, Edith Carr, and stop bein' a I'm a western-bred man and I know my business. I know that a man does not lie to a man without reason. I know that when Peter Vinton took your father as his partner, old Joe Carr was a man worth tyin' to."

"Her eyes lit at that with a different light and she even smiled a little."

"Edith Kane had come down here and all the world knew him as Gerald Keene how far would he have gone in getting proof of the crooked work of this man Dustin?"

"You mean that you represent Mr. Keene?"

"Exactly. But remember that no one else must know it. The whole thing will be clear on the tenth when Keene unmask."

She studied him for a long minute. She noted the lean lines of the jaw; the quiet smoky-grey eyes shot with hazel sparks. She noted the firm lips and the aggressive chin.

Then she took in the rippling muscles from wrist to shoulder and the "hour-glass" torso. She studied him but she said never a word. She merely nodded but that nod was one of complete and utter satisfaction.

There was something about this man Duro Stone that gave her a sense of great relief. The third cigarette was all ash when he stopped and pointed to a pile of freshly turned earth.

F. B. Cobb.

"That'll be the sunk," he said hurriedly.

She ran forward with a little cry and joined him as he stood over the place. The fresh earth had been heaped in a little pile that he promptly scratched away with both hands and feet disclosing an ordinary five-gallon can that was filled with charcoal. Edith looked at it with incomprehension but Stone gave a little grunt of surprise.

"That's good. That makes about forty-five minutes up Red Water and between puffs at that cigarette he studied her profile as she kept her watch.

"Seven minutes and a half," she said finally. And neither of them knew that in those seven minutes Fate had dealt a new hand to them both.

"That's good. That makes about

forty-five minutes up Red Water to a white birch. White birches ought not to be very plentiful in this land. Let's go. We'll lead the ponies. It's too rough to ride."

For nearly an hour they blundered their way heavily up the canon and finally paused at a stunted white birch. Stone let out a whoop of delight.

"All right so far," he said. "Now let's try again. I'll roll three this time and keep check on you. The trail is rougher here."

And with Edith tailing along at his side he headed up the valley.

"Sunk can," he said breathlessly. "I wonder why he wrote 'sunk can'? He must have made a cache there."

"Where'd you get that word 'cache'?" she countered swiftly.

"Look here, Mr. Duro Stone . . .

Mr. Hard Stone . . . You come clean with me. You can pull the

Blairmore, Alta., Thur., Jan. 31, 1935

HIGHLIGHTS OF BENNETT'S UNEMPLOYMENT INSURANCE

All over 16 years of age insurable except those engaged in agriculture, teaching, fishing, lumbering, police, banking and finance, army and navy, agents, casual workers.

Contribution for man workers' over 21 years, 25 cents per week; employe to contribute 25 cents weekly, and government 10 cents. Contributions of women and younger workers in same 2½, 2½ and 15 proportion.

Benefits to unemployed insurable man over 21 to be \$6 per week, with \$2.70 per week for each adult dependent and 90 cents per week for each child dependent.

Contributions of workers to be in form of stamps posted in worker's book.

Contributions extend for 78 days plus one day for each week for which benefit insurance paid.

Government to pay all administration costs.

Benefits begin nine days after worker becomes unemployed.

Unemployment relief still to remain a responsibility of municipalities and provinces.

Contributions to the government's unemployment and social insurance scheme, if and when the bill containing it passes through parliament and is proclaimed, will be made by the worker, employer and government each week as follows:

Worker Emp'r Gov.	cents	cents
Boys (16 years)	7	2.8
Girls (16 years)	6	2.4
Boys (17 years)	11	4.1
Girls (17 years)	9	3.5
Men (18-20 years)	18	7.2
Women (18-20 years)	15	6.0
Men (21 or over)	25	10.0
Women (21 or over)	21	8.4

No benefits will be paid under the unemployment insurance bill until about six weeks after it becomes law. No person is entitled to benefit until he or she has made 40 weekly contributions.

H. G. Thunell, editor of the Viking News, has been elected president of the Alberta Division of the Canadian Weekly Newspapers Association with Grover Cleveland Duncan, of Drumheller, as vice-president; H. T. Halliwel, Coleman; R. C. Jessup, Macleod; E. P. Galbraith, Red Deer; C. L. Dunford, Oyen, and W. Conquest, Athabasca, form the executive.

In these strange times some people have lost many things, but apparently not their consciences. This is vouch- ed for by the fact that the treasures of the Canadian National Railways has received total of \$1,114.85 in conscience money turned into the railway during 1934 by persons wishing to make restitution for certain wrongs committed. Frequently the remitter omits to state the exact nature of the act which caused a troubled conscience, and in such cases the railway considers the amount as "related" passenger revenue and it is therefore credited to that department.

Burnett & Cruickshank's store at Hillcrest enjoyed busy time since their big Twenty-Fifth Anniversary sale opened on Saturday last. The weather man looked kindly upon the event and provided better roads and better weather than had been experienced for several weeks previous. The sale was advertised by large and attractive bills, the work of The Enterprise job department.

ANNUAL MEETING
OF RATEPAYERS

The annual meeting of the ratepayers of the Town of Blairmore took place in the central school house on Friday evening last, and was very poorly attended. The chair was occupied by Mr. W. H. Chappell, who called upon His Worship the Mayor and members of his council for reports of their stewardship, following which the auditor's report and financial statements were submitted. These documents were upon motion received.

Being unable to attend the meeting, we gather the following extracts from reports submitted by a local correspondent to the daily press:

The statement showed \$38,889.71 collected in taxes, light and power collections \$12,149.16, water collections \$8,237.77, relief refunds \$3,181.81, sundry collections \$3,411.00, allowance for street lighting \$1,800.00, balance in bank brought forward from December 31, 1933, \$25,577.00, making a total of receipts of \$99,880.17.

Expenditures by departments were:

Public works \$13,609.87, fire department \$10,693.26, license and police \$17,926, water works \$921.06, light and power \$9,932.61, health and relief \$14,714.18, sundry expenses \$7,156.60.

Blairmore school district \$32,600.00, a total of \$51,622.91, leaving a balance cash on hand and in bank of \$17,226 as at December 31, 1934.

The total assets of the town amounted to \$188,148.49, with \$25,462.07 as arrears in taxes and \$23,628.93 trust fund tax arrears. Liabilities amounted to \$134,865.04 with \$81,661.57 of the liabilities reserves set up for redeemed debenture and general assets, and \$12,857.91 due to Blairmore school district as taxes collected in excess of school requisitions. Outstanding debentures amounted to \$371.25. Surplus of assets over liabilities amounted to \$55,283.45.

Although the School Ordinance had not been complied with, in that proper public notice, as required by the ordinance, was not given of the annual meeting of the ratepayers of officers of Blairmore Lodge was Dan Boyle. More school District 628, such meeting was called to order immediately following the town meeting, at which Mr. Chappell also presided.

After the reading of the minutes of the last annual meeting and adopting the teachers' reports, the annual financial statement of the school district was read and adopted. Total

receipts for the year amounted to \$38,146.97. Expenditures amounted to \$37,265.76, of which \$17,567.50 was paid for erecting and repairing school house, stable and outhouses, \$1,050.00 to school dentist, \$3,818.57 for caretaking, fuel, light and water. Cash on hand and in bank as at December 31, 1934, amounted to \$881.21.

The balance sheet showed assets amounting to \$105,319.30 represented by land and buildings \$50,238.79, furniture, apparatus, etc., \$8,561.05, playground equipment \$2,006.07, library and reference books \$705.00, arrears of taxes \$31,665.57, due from municipality on requisition \$12,857.91, estimated government grant \$1,400.00, cash in bank \$881.21.

The school district is entirely clear of outstanding debentures and has no liabilities.

Cost of operating the school for the year 1934 amounted to \$28,044.56, insurance carried on building \$27,000, and on furniture and equipment \$7,300.

J. Price, Bellevue; Mrs. L. Rose, Hillcrest; W. H. Chappell and J. Krosky, Blairmore, will represent their respective schools at a convention of the Alberta Trustees Association at Calgary next week.

The story is told that an employee of a prominent capitalist had a dream, and he dreamed that his employer died. The casket was carried by six of the oldest and most faithful employees, and as the remains were carried by, the capitalist raised up and offered the following suggestion: "If you would put rollers under this casket, you could lay off five men."

BREWERY TAXES MORE THAN RELIEF GRANTS

Major Houde, of Montreal, felt obliged to decline the invitation to go to Calgary for the big mayors' convention. He knew, no doubt, that nothing could be added to his knowledge of handling municipal affairs by attending. Had he received such an invitation, from Blairmore, he certainly would have accepted. That's entirely different!

Evidently, all those who took an interest in the "Neelin Sign" proposal several months ago are first-rate goats. Other towns in Alberta appear to have been similarly victimized. Just once again where people seem prone to have dealings with transients they do not know. We would bet any money that if a well known and responsible local party endeavored to put over a similar proposal, he couldn't get the consent of the same class of people we're to offer the ads and clock face. As a result, looks as though Tim Buck's

boulevard is not to be so brilliantly decorated and illuminated as was anticipated. The money lost on this occasion would have gone a long way towards helping our own citizens.

Expenditures by departments were:

Public works \$13,609.87, fire department \$10,693.26, license and police

\$17,926, water works \$921.06, light and power \$9,932.61, health and relief \$14,714.18, sundry expenses \$7,156.60.

Blairmore school district \$32,600.00, a total of \$51,622.91, leaving a balance cash on hand and in bank of \$17,226 as at December 31, 1934.

The total assets of the town amounted to \$188,148.49, with \$25,462.07 as arrears in taxes and \$23,628.93 trust fund tax arrears. Liabilities amounted to \$134,865.04 with \$81,661.57 of the liabilities reserves set up for redeemed debenture and general assets, and \$12,857.91 due to Blairmore school district as taxes collected in excess of school requisitions. Outstanding debentures amounted to \$371.25. Surplus of assets over liabilities amounted to \$55,283.45.

Some of the following statistics gathered from the financial statements of the Town of Coleman and Coleman School District would bear comparison with similar items on the Blairmore list: Printing and stationery, \$182.88; dog taxes—collected \$218.50; licenses, \$80.05; fines \$101.53; cash in bank December 31st, \$10,223.05; due school district, nil; depreciation reserve \$34,155.17; School district—cash on hand and in bank, \$33,783.29; government grants received, \$8,793.30 (no Red holidays); erecting and repairing school house, etc., etc., \$1,644.01; supplies (stationery, postage, chalk, etc.), \$433.19; caretaking \$3,856; owed by the school district, nil; liabilities, nil; cost of operation of schools for 1934, \$371.25.

Prominent among the Graham supporters of District Deputy Grand Exalted Ruler Kelly here on Tuesday night for the installation of officers of Blairmore Lodge was Dan Boyle.

Dan recalled the good old times and associations when he resided here

with his family from about 1905 to 1910, and again after a short absence his further stay here till 1916 when he moved to Granum. Dan is practically entitled to his claim of being the father of hockey and some other sports in the Crow's Nest Pass. In the early days, when Coleman and Blairmore, or Frank, were to engage in hockey, it seemed absolutely wrong that members of one team should be on speaking terms with members of the opposing team, and knucklebones formed accepted evidence that certain players had been in the conflict. He was pleased today to note that a whole lot of this petty ill feeling had given place to a spirit of friendliness and co-operation, which prevails in practically all these districts.

A dog died the dead body of an infant from the beach at East Barracoo to a fish house at Shelburne, Nova Scotia. A coroner's jury pronounced the infant stillborn and recommended an investigation by the R.C.M.P.

THE LIFE OF A TOWN

"No business man in any town

should allow a newspaper published

in his town to go without his name

and business being mentioned some-

where in its columns. This does not

mean you should have a whole, half

or even a quarter page ad in each

issue of the paper, but your name

and business should be mentioned, if

you do not use more than a 2-line

space. A stranger picking up a news-

paper should be able to tell what

business is represented in a town by

looking at the paper. This is the best

possible town advertiser. The man

who does not advertise his business

in his local 'newspaper' does an in-

justice to himself and the town. The

man who insists on sharing the busi-

ness that comes to town, but refuses

to advertise his own is not a valuable

addition to any town. The life of a

town depends on the live, wide-awake

and liberal advertising business men."

—American Bankers' Magazine.

COWLEY HAPPENINGS

The Cowley ladies' bridge club was entertained by Miss Nellie McWilliams at her home in the Christie block on Tuesday night. Prizes were won by Mrs. E. B. Hagel and Mrs. I. Christie.

Our huge snow drifts are fast disappearing with the mild wave, which began on Wednesday of last week, with a strong chinook wind levelling them to the earth.

A whist drive, sponsored by the Cowley girls' club, was held in the Masonic hall on Monday night, with a good-sized crowd attending. Prizes were won by Miss Barbara Hagel, ladies' first; Mrs. M. A. Murphy, second; Rev. Father O'Dea, gents' first; Norman Horning, second.

The two turkeys drawn for at a gentlemen's card party on Thursday were won by Edgar Cowin and Ronald Morrison.

P's and Q's

SOME authorities have it that the expression "Mind your P's and Q's" has its origin in the care which printers have to take when setting up type to distinguish between the very similar letters "p" and "q." Others say that "once upon a time" tavern-keepers, in making up their bills, used a P or Q to indicate a Pint or a Quart, so that a customer in paying, had to mind his P's and Q's. Take your choice of explanation!

Probably no commercial publication in the world minds its P's and Q's more carefully than the EATON Catalogue. Every page of every edition of this book is checked, re-checked, and checked again, by Advertising and Merchandising experts and by the EATON management before it is finally published. All this is in the interest of ACCURACY—to make sure that no slightest misrepresentation or exaggeration regarding EATON Merchandise or EATON Prices finds its way into our pages. For, above all else, we are determined that NOTHING shall be permitted to distract western Canada's firmly established and unshakable conviction that "It's SAFE to shop at EATON'S."

ALBERTA

her home for about three months.

The Bellevue Bakery staff suffered their first defeat in hockey last week at the hands of the Bellevue, Pein pushers. The score was 10-9 for the pushers.

James Carlson returned to Portland, Oregon, after spending four or five months here with his mother. Pete Rasko sustained a broken leg on Wednesday, while following his occupation as a miner.

CANADA OWES AN APOLOGY

An echo of the sinking of the Canadian run-runner, I'm Alone, by a United States coast-guard cutter in 1929 was heard last week when Secretary Cordell Hull sent a formal note of apology to the Canadian government. It will be remembered that the notorious schooner, under a Canadian captain, was engaged in carrying liquor into the United States during the days when that country was desperately struggling to uphold its prohibition law. The wet press of both countries raised such a howl of protest at the time that one might imagine the vessel was carrying the Holy Grail. A joint commission appointed by the United States and Canada having thoroughly investigated the circumstances has now delivered its finding, which is, briefly, that "while the mission and use of the vessel at the time of sinking were unlawful, nevertheless its sinking by the United States officers was also unlawful."

So our good neighbors have expressed their regrets, and the liquor-backing and liquor-backed portion of the Dominion press has been gloating over the apology. We are confident, however, that the Canadian people are exceedingly sorry and indeed thoroughly ashamed of the whole sorry affair. Technically, the United States' revenue officers may have been guilty of some breach of international law, but all decent Canadians—and they constitute the overwhelming majority of our citizens—feel, and have felt, all along, that Canada ought to have done the apologizing. Our part in the liquor-smuggling into United States territory was a scandal, and a crime, not only against our neighbor but against humanity. And the fact that American bootleggers were in league with our criminals is no excuse for the crime.—The New Look.

The friends of Mrs. Eccleston, senior, will be glad to see her out and around again, after being confined to

BELIEVE IT OR NOT

A wheel barrow will stand on its two legs and never move a foot unless you lift it up and push it along. So would business. You've got to pick it up and push it along.

Business is made up of the hands and hearts, thought and heart throbs of an organization. Merchandise is merely the stuff sold.

In business depressions strong minds increase their efforts, while little men prance and dance about like a bobtail horse in fly time.

Business must be conducted on a basis of profit. A business that depends on its reputation for cheapness will soon earn a cheap reputation. The customer is more concerned in quality, service and courtesies than in the saving of a little money and the loss of satisfaction.

There is no influence in business so valuable as a kind voice, no stock in store that equals in influence a friendly smile, no price has so much pulling power as dependable service, no advertising is so far-reaching as a square deal.

The best test of every man in business is in the manner or method he employs, and the ethics he follows in his everyday life.

The soundest rule ever written on business is the Golden Rule. When we "do others," others combine to undo us. The result is a hundred gr more against one. The odds are too great.

STUDENTS "GO HOLLYWOOD"

Edmonton—Seeking to add glamour to the Undergraduate Dance, sponsored this year by the University Law Club, promoters of the affair dispatched a telegram to Hollywood inviting movie stars to attend. Prospect of participating in thrilling Alberta winter sports was offered as temptation to the California celebrities. Hollywood authorities wired back that, although the invitations were appreciated, it would be impossible for any stars to attend.

Despite the failure of the promoters to obtain the Californians, the affair was a splendid success.

THE TAR SANDS

Interest in the development of the northern Alberta tar sands has been stimulated this year by the experiments in extraction being conducted at Toronto by Mr. Ball, who is endeavoring to establish a simple and efficient method of separating the bitumen from the sands.

The Trail Smokeaters visited Colman this week for a two-game exhibition series. The game on Tuesday night resulted in a draw, 2-2; while last night's score was 3-0 for the Smokeaters. The attendance at both games was small.

Letter to a Florida newspaper: "Thursday I lost a gold watch I valued highly. I immediately advertised in your lost and found column and waited. Yesterday I went home and found the watch in the pocket of another suit. It certainly pays to advertise."

A local photographer became sadly disappointed one afternoon last week, when he attempted to get a motion picture of a man working for the town of Blairmore. After several futile attempts, he quit—it being absolutely impossible to operate the machine slow enough to match the laborer's movements.

Any suggestion that No. 6, Galt Collieries, will close February 1st, is erroneous, Supt. Robert Livingstone emphatically declared today. The mine will operate until the end of February at least, and if orders warrant the mine will be kept operating until the middle of March, Mr. Livingstone said.—Lethbridge Herald.

The head of the department of astronomy in one of the women's colleges is not noted for her beauty of form or face, or the general neatness of her attire. So it caused some amusement among the students of one of her classes to see a note on a bulletin board reading: "If you want to see Venus, see me tonight at eight o'clock."—Chicago News.

able from Mr. Ball as to his plans in connection with the experiments.

Operations have been continued by the International Bitumen Co., who have been operating for some years on leases totalling 10,000 acres some fifty miles down the Athabasca river beyond railhead. The company has been shipping out only from two carloads of bitumen a year, but have been carrying on experiments on the deposits for the extraction of oil. From the company's bitumen output, a number of products are being manufactured, including various kinds of roofing, paint and varnish. They also have developed a medicinal product which they state has been used with success in one or two hospitals and has the endorsement of a number of medical authorities.

Years ago a couple of good Cr League teams could draw a crowd that would fill the arena to its rafters. We can remember亲眼 to such a precarious perch to watch Blairmore and Lethbridge battle it out.—Lethbridge Herald.

Visiting England for the first time in 10 years during the holiday season, Don Lewis, Lethbridge automobile salesman, found many changes and he was greatly impressed by the apparent signs of prosperity on every hand. Mr. Lewis returned to Lethbridge on Thursday evening by motor, driving a new 1935 model Chevrolet special sedan from Oshawa, Ontario. Another thing that impressed the traveller was the splendid service given by C.P.R. employees on rail and water during his trip. "The service could not have been improved on for courtesy and comfort," he declared.—Lethbridge Herald.

Appraisals Of Progress

"If we are to take stock of the world's advance in 1934; let us first take stock of ourselves."

With this challenge to the conventional New Year appraisals of progress, Dr. Robert A. Millikan, distinguished scientist and Nobel Prize winner, contributes to the January American Magazine what is described in an editorial review in "The Reader's Digest" as one of the truly stimulating articles of the month.

It is stimulating, and for that reason we utilize this column to reproduce The Reader's Digest editorial review of Dr. Millikan's article. It says:

Dropping for the moment his famous pursuit of the cosmic ray, Dr. Millikan seeks for rays of hope in the cosmos of human aspirations. The editor ends with the following final judgment: "He has done his part in the construction," he says, "only blind us to the real possibilities of mankind's advancement. Records of transportation are important, but not so important as whether the men who last year used our vaunted methods of eating space were more thoughtful and kindly than those who were transported the year before. The books have spoken, we get about and forget how to walk peacefully and reflectively with ourselves."

The number of miles traveled in automobiles is not as significant as what we saw and felt on our way. Did we hog the road and give battle at crossings, or were we chivalrous as knights? How many bonds did we grant with our cars to the world outside the shining? And "how many times did we drop down to a hilltop to read and to meditate, hungering for betterment?" Just as human values transcend statistics, so we must use the golden rule to measure true progress.

Our improved communication, whether by radio, telephone, or transatlantic cable, does not of itself constitute a higher standard of aspiration. The question is: What have we communicated? Faith and prejudice? Did our remarkable efforts tend to promote hate and greed, base ideas and false sentiments? Or did they reflect sounder thinking, more generous and humane impulses?

Our efforts to make a staggering number of telephone calls or talk freely to London and Paris and continental Europe have nothing to do with whether or not we used the telephone as an instrument of fellowship. Did we call and offer to help a friend smitten by ill luck? Were we less rude and intolerant? There was no progress if we growled into the mouthpiece and dropped up the phone. All these qualities are as important as the physical and mental.

The fact that some of our ambitions are now realized becomes really tragic only as the minds of those who use them become gloomy and half occupied, too. Not the number of new buildings that go up but what goes on in them is the vital standard. Do new buildings contribute better living or larger opportunity?

Let us not be deceived by the prosperity of our farms and factories. The supreme question is, did we grow in mental, moral and physical stature? Not how fast the wheels turned in 1934, but "how slow and firm were the feet of thoughtful men upon the earth." Not how much improvement in motor design, but "how much we improved the motor men—the knowledge, the understanding, the purpose."

Stratosphere flights were made in 1934, but what of the aspirations of those who remained below? "In 1933, perhaps," Dr. Millikan writes, "if we are thoughtful and honest and kind and courageous, we may ascend a little way toward our own stratosphere—the mysterious altitudes of ourselves."

Wanted Bells Used

Unless They Were Donor Would Not Attend Church

Antonio Giovanni Regaglioni, pliant merchant of the Cariboo, has heard the peal of the bells he donated many years ago to the church in Lytton, B.C., and has returned to worship with his neighbors.

For many years the bells had not been rung because residents complained of the noise. "Ring my bells or I do not go to church," said Regaglioni. At last his words have been heeded, the bells have been rung on Sundays and the merchant attends church regularly.

Football coach (to players): "And remember that football develops individuality, initiative and leadership. Now get in there and do exactly as I tell you."

Mountain goats are increasing in Mount Rainier National Park, Washington.

Kidney Troubles

Take poisons to accumulate in the system and bring on pentimento, kidney trouble, rheumatism or sciatica. Take Gin Pills to restore the kidneys to a healthy condition and eliminate the poison from your system.

The "Important" Call

Message From Japanese Guest Had Hotel Operator Worried

A Miss Elizabeth Hett, chief operator of the Hotel New Yorker at New York, plugged in on a telephone call the other day and found herself in conversation with an excited guest who, though quite articulate, spoke Japanese. Not understanding a word of it, she did gather it was very important. And so she telephoned the Japanese consulate. Miss Hett explained that she knew it was the consulate's business to aid countrymen in distress. And this countryman plainly was in distress.

Ah, yes, said the man. He would connect her with a higher official.

The third Japanese, who may or may not have been the consul general himself, quickly grasped the situation and proceeded to talk with the hotel guest. They talked for five minutes, at least, and snickered a good deal. Then the attack of the consulate spoke to Miss Hett. "I will translate the message," he said gravely. "Your guest hopes that someone will call for his laundry on Monday afternoon—Paul Harrison."

Judging from the large demand for poultry marked by the official grades, it is apparent that Canadians are becoming familiar with those grades. More tagged poultry was displayed and sold on grade during the recent holiday season than in any year since grade tagging was introduced.

Would Be Safe

"Are you fond of toffees?" asked the little mite, of a lady who was assisting at a party.

"No thank you, my dear."

"Then will you look after this for me please?"

War Not Inevitable

Responsible Leaders Of Nations Must Make Up Their Minds To Pay The Price

I do not think that war is, necessarily, either impending or inevitable. Acutely critical though the international position has become, it does not yet fill me with the same heavy sense of certain and imminent catastrophe as that which weighed upon my mind in 1913 and 1914. But war will come, and will work unprecedented havoc unless the responsible leaders of nations which are still free make up their minds to pay the price of preventing it.

This price, I have long maintained, is to declare that the renunciation of war has reduced the lawful function of national armaments to the police

function; that the discharge of this police function entails the renunciation of neutrality towards any nation that may be guilty of recourse to war as an instrument of national policy; and that every member of the League and every signatory of the Briand-Kellogg Pact is, therefore, debarred from neutrality towards any nation that may seek by violence to gain its ends—Wickham Steed in the Fortnightly Review.

Had Long Service

Man Responsible For King's Personal Safety Has Retired

The King's head detective has retired, after 14 years' service at Buckingham Palace, and has been invested, at a special audience at the Palace, as a member of the Victorian Order.

He is Superintendent William George Cole, and bore the official title of "Police Officer in Attendance on His Majesty the King." He was responsible for the King's personal safety at all times and for all the police arrangements at the King's various palaces.

He has accompanied the King whenever His Majesty has appeared in public during the last 14 years, and has attended him on many private occasions also.

These Royal appointments are greatly coveted, although their responsibility is grave. The holders approach the highest office by stages. Thus Col's successor at the Palace is the inspector who for several years has been attached to the Queen; and his place again has been taken by the officer previously attached to the Duke and Duchess of York.

Col's son, a man of 30, is now

Forgot To Remove Money

Winnipeg Cleaning House Found \$900 In Suit Pocket

Junior has always been the butt of jests for the miscellaneous array of knickknacks in his pockets, but men are only grown-up boys if the men in charge of cleaning houses are to be believed.

Watches, wallets, currency, cheques, business papers, memo and bank books are only a few of the hundreds of articles recovered daily from Winnipeg cleaning establishments. The sum of \$900 fell from the pockets of a suit sent in by a cattle buyer who decided to floss up a bit in town.

In 1900 Canada exported 470,000 bushels of apples; by 1920 this had increased to 1,238,000 barrels, and for the shipping season 1933-34 all records were broken with a total of 3,476,114 barrels shipped out of the country. In 1900 Canada's export apple trade was confined to nine countries; by 1932 thirty-six countries received Canadian apples.

Talking of absence of formality, reminds me of an incident that happened to me when out for a quiet ride one evening recently. A farmer riding home overtook me, and we chatted together for a bit, when he suddenly turned and said, "Aren't you His Highness?" When I admitted that I was, he said, "Yes, that's right I thought I recognized your horse."

Fined For Excess Noise

Austria Places Limit On Sounds Made By Vehicles

Vienna, Austria, is determined to have silence, and has placed a limit on rattles and other sounds made by vehicles. A unit of sound, labeled "phone," has been evolved. Each class of transportation is allowed just so many "phones", and no more, and there is a schedule of fines according to the number of excess "phones." The police use a new apparatus which records the sound emanations of passing vehicles.

A Human Calendar

Peter Petrovitch of Belgrade, Serbia, can memorize in ten minutes a number containing over 80 figures. The previous world's record for this feat was held by an Englishman, who was able to learn correctly 73 figures. Peter also is a walking calendar. Mention any date to him, and he will at once tell you on what day of the month it falls.

He advised me to take fruit-avatives. Since I used them I have not had a single headache. I am sure they are good for me. I would like to recommend fruit-avatives too highly to anyone who is troubled as I was."

Copy of Mr. Dawson's complete seven volume series of "Fruit-avatives" is available from the author, 1000 Lakeside Avenue, White Rock, British Columbia, Canada. FRUIT-A-TIVES 35c and 50c EVERYWHERE.

Food For Castaways

Supply Always Left On Lonely Islands In Indian Ocean

To be shipwrecked on some lonely island or rock, where there is no food, is a fate which has often befallen sailors.

It is those spots of land which are at a great distance from the regular ocean highways where the outlook for castaways is so desperate. Yet it is just these very islands on which a disabled ship may drift.

Typical of these islands are those called Amsterdam, St. Paul and the Crozets, lying to the south of the Indian Ocean. In the old days sure starvation was the fate of any man stranded on St. Paul.

To-day we will find on the rocky beach a notice board bearing the inscription in French, "Food and clothing for castaways." Following the direction indicated by a wooden hand, he comes across a rough stone hut, in which there is a store of preserved beef, biscuits, woolen shirts, blankets and matches. All these goods are contained in strong barrels, which can easily be opened.

As long ago as 1887 a French vessel left beef, biscuits and sardines on one of the Crozet islands. Nearly twenty years after the food was eaten by the shipwrecked crew of a Norwegian whaling expedition.

Caribou Herds Drift South

Have Come Further Than Old Time Ever Remember

Vast herds of caribou, lifeblood of Indians and whites living in the Northwest Territories, have drifted further south than old-timers in the north ever remember before. Pilot Officer McMillan, Mackenzie Air Service, revealed:

Each winter herds containing thousands of caribou drift in from the Barren Lands and as summer approaches work their way back again from the tree line toward the desolate open plain of the north.

Recently these animals landed his plane on the south shore of Lake Athabasca, only 480 miles north of Edmonton, where the caribou were plentiful. Old-time trappers in the area said that this was the first time to their knowledge the caribou had come so far south, he said.

The northern reindeer are as plentiful or more numerous than last year, where the herds were considered unusually large.

The herds are 80 miles south of Cameron Bay, N.W.T.

Told Story On Himself

Duke Of Gloucester Saw Humor In Farmer's Remark

His sense of humor, blended with discretion and dignity, proved valuable qualities for the Duke of Gloucester on his recent tour of the Commonwealth of Australia. He prefers functions which aren't too formal and he liked to tell a good story on himself. He told the following at a dinner given him by the "Diggers" at Sydney, N.S.W.:

"Thinking of absence of formality, reminds me of an incident that happened to me when out for a quiet ride one evening recently. A farmer riding home overtook me, and we chatted together for a bit, when he suddenly turned and said, 'Aren't you His Highness?' When I admitted that I was, he said, 'Yes, that's right I thought I recognized your horse.'

Many people who think they have "weak stomachs" or "indigestion" doctors say, suffer in reality from a condition known as "acid reac-

The Full Vitamin Value of Cod Liver Oil

Sun Spots Indicate Period of Greater Solar Activity

Two more large spots appearing on the sun's surface indicate that the eleven-year cycle of solar activity is again commencing, with its accompanying effects on the earth's radio, vegetable growth, lake levels, animal fecundity and even business prosperity, according to Dr. Crestes Caldwell, vice-chairman of the advisory committee of New York's new Plutonium at the American Museum of Natural History.

Pointing out that the sun spots themselves are not portents of earthly events, Dr. Caldwell, who is editor of Electronics, explains that such spots are vast storms in the gases masking up the sun's surface.

The presence of these sun spots indicates a period of greater solar activity, he says, which is manifested in increased electromagnetic oscillations that reach across the 61,000,000 miles to the earth causing auroras and upsetting communication circuits.

In turn this increased ionization speeds up vegetable and tree growth on the earth, stimulating crops and recording itself in the different spacing of tree rings, stretching back for many years. Animal life also appears affected, and Dr. Caldwell exhibits curves comparing the varying animal catch of Hudson Bay trappers with the corresponding numbers of sun spots for the same years. Although the same number of traps were set out each year, the catch of rabbits, foxes, etc., varied widely, indicating great variation in the number of animals roaming the woods, and this variation proved to be closely linked with the sun spot numbers.

The export market for frozen poultry has opened up earlier than in 1934. Already 2,000 boxes of chickens have arrived on the British market, with more shipments to follow. One shipment from the Western Provinces is routed via the Panama Canal.

WHAT TO DO ABOUT Acid Indigestion

A WAY THAT RELIEVES THE CAUSE IN A FEW MINUTES

Many people who think they have "weak stomachs" or "indigestion" doctors say, suffer in reality from a condition known as "acid reac-

tivity". And this common ailment can usually be relieved now, in minutes. All you do is take familiar PHILLIPS' Milk. Many millions do. This acts almost immediately to neutralize the stomach acidity that brings on your trouble. You feel like a new person.

Try this juice once. Take either the familiar liquid "PHILLIPS'", or the new "Phillips' Milk" or "Magnesia Tablets". But you won't get that Genuine "PHILLIPS' Milk" or Magnesia. Made in Canada.

ALSO IN TABLET FORM: Montreal's new knight, Sir Charles Dawson, was stricken with blindness when 19 years old. His spirit rising magnificently above this affliction he became a piano tuner, began to sell pianos, built up a great business, and incidentally amassed the fortune that is the basis of his splendid philanthropy.

Built Up Great Business

Montreal's new knight, Sir Charles Dawson, was stricken with blindness when 19 years old. His spirit rising magnificently above this affliction he became a piano tuner, began to sell pianos, built up a great business, and incidentally amassed the fortune that is the basis of his splendid philanthropy.

TARIFF BOARD TO INVESTIGATE GASOLINE DUTY

Ottawa.—The tariff board has been asked by Minister of Finance E. N. Rhodes to investigate the tariff on gasoline. The minister's reference covers crude petroleum and its derivatives. This includes items in the tariff schedules from 267 to 275.

The reference is accompanied by a letter from the acting registrar of the co-operative association of Saskatchewan which contains a request of the executive of the co-operative trading associations of that province for downward revisions of the rates of customs duties on crude oil and its products.

The tariff on gasoline at present effective provides for a duty of two cents per gallon under the British preference, 24 intermediate and 2½% general. These rates apply on gasoline, distilled, refined and purified petroleum oils, coal oil and kerosene, naphtha and other products.

The letter said, in part:

"At a conference of co-operative associations which met in Regina in June, 1934, the merchandising of fuel oil, such as gasoline, kerosene, etc., was discussed in some detail. The fact that a considerable number of co-operative trading associations have been organized in this province for the purpose of merchandising fuel oils on a co-operative basis, is one reason why the delegates gave this subject their consideration. In addition, the prevalence of tractor farming over large areas of the province, is another reason why the various phases of the oil industry were among the most important subjects of the agenda of the conference."

The letter goes on to state that a resolution was approved at the conference calling for the free entry of petroleum products into Canada. It then proceeds:

"The permanent executive of the conference instructed the undersigned to bring the resolution to the attention of the Rt. Hon. R. B. Bennett. In acknowledging the receipt of the copy of the resolution Mr. Bennett suggested that the associations interested make an application to the tariff board for reduction of the tariff on crude oils and oil products, and advised that the government would do everything in its power to expedite a hearing."

"I, therefore, have been instructed by the executive of the conference of co-operative trading associations to inquire whether arrangements can be made for a hearing by the tariff board in Regina in the near future, in order to enable the representatives of co-operative associations and others interested, to make the desired application and submit a detailed argument in favor of a reduced tariff on crude oils and oil products."

Brakeman Acquited

Edward Lynch Freed By Jury In Wreck Case

Hamilton, Ont.—Edward Lynch, C.N.R. brakeman, was acquitted on a charge of manslaughter by a jury in supreme court before Mr. Justice Makins. The jury took three hours and 45 minutes to arrive at this decision.

The charge was laid against Lynch following the Christmas night train wreck at Dundas in which 15 persons lost their lives.

Justice Makins, in receiving the verdict, said he believed the jury had given its best consideration. To the brakeman he said:

"You have been fairly prosecuted on this charge and the jury has found you not guilty. It is a pleasure for me to discharge you. I hope what has happened is not going to spoil your happiness and usefulness in life."

Cut Bay Route Expenditure

Ottawa.—Capital expenditures on the proposed railway and terminals will be substantially less in the fiscal year 1935-36 than in 1934-35, according to estimates tabulated by the construction council of Canada, was demanded in a resolution passed by the Edmonton Chamber of Commerce council for consideration.

Would Widen Fruit Act

Winnipeg.—Proposal to widen the Dominion Fruit Act so growers marketing their own fruit and intra-provincial distributors would be regulated was adopted by the annual convention of the Canadian Fruit and Vegetable Jobbers' Association.

Drop In Estimates

Federal Appropriations For Financial Year Are Reduced

Ottawa.—A drop of \$951,068 from last year is noted in the main estimates tabled by Finance Minister E. N. Rhodes in the House of Commons. Appropriations for the forthcoming financial year are \$351,968,944 as against \$352,001,012, representing main and supplementary appropriations for last fiscal year.

The principal increase this year is one of \$4,269,440 on public works. This is almost offset, however, by a decrease of \$4,150,475 in interest on the public debt.

Other substantial increases are \$73,000 for aviation, \$550,984 for the post office, \$329,488 for railways and canals, \$250,662 for trade and commerce and \$403,895 for agriculture.

Outside the cut in the public debt interest, the largest decreases include \$2,040,234 in miscellaneous expenditures, \$442,309 for soldiers and general land settlement, \$207,520 for legislation and \$82,403 in charges of management.

The \$700,000 increase in aviation is for the Royal Canadian Air Force, with an additional \$38,000 to be expended in civil aviation.

The militia and naval appropriations are slightly increased, the total this year being \$11,252,001 compared with \$11,108,260 for last fiscal year.

In the public works appropriations amounting to \$13,024,050, public buildings in Nova Scotia will be erected or repaired to the extent of \$129,000, while \$520,700 will be spent in that province for harbors and rivers.

Prince Edward Island receives \$6,500 for public buildings and \$67,000 for harbors and rivers. New Brunswick's portions are \$112,000 and \$381,200; Quebec, \$258,400 and \$174,500; Ontario, \$599,200 and \$880,500; Manitoba, \$1,500 and \$49,500. Saskatchewan's public buildings have an appropriation of \$83,000 and Alberta, \$72,500. The two last-named share \$64,500 for harbors and named.

In British Columbia \$53,100 is being appropriated for public buildings and \$316,250 for harbors and rivers.

Short Senate Debate

Social Legislation A New Step In Pathway Of Canada

Ottawa.—Without a dissenting voice, the senate adopted the address in reply to the speech from the throne in one of the shortest debates in 10 years. Adjournment of the upper chamber then was made until Feb. 6.

"I believe the country as a whole expects parliament to take action, real proper and forward action, in this direction," Rt. Hon. Arthur Meighen said in commendation of the legislative program in closing the discussion.

Only three members of the upper chamber entered into the debate. Senator Raoul Dandurand, Liberal leader, followed by Hon. J. P. B. Cragin, Montreal, and Senator McIver.

"Never before has parliament met with a menu of that attraction and that challenge on their desks," declared the government leader. "That care will be necessary in the framing of these measures goes without saying."

"That they will involve burdens upon those best able to pay goes without saying; but I ask hon. members who have watched the evolution of the world in the last 10 years, who have examined the social conditions of this country itself, if in their hearts, they believe these things can be avoided."

The social legislation announced in the speech was a "new step in the pathway of Canada."

Survey Of Buildings

Edmonton.—Survey of all buildings in the city with such civic, departments as assessors, engineers, health and fire inspection taking an active part, to discover those not coming within the standard set by the construction council of Canada, was demanded in a resolution passed by the Edmonton Chamber of Commerce council for consideration.

Students Would Defend Canada

Kingston.—Queen's University students favor bearing arms for Canada in event of war, and are about evenly divided as to defence of other countries, a cursory examination of results of a questionnaire showed. The majority of voters favored Canada's membership in the League of Nations.

Farmers Must Keep Promise

Alberta Judge Rules On Orders For Debt Adjustment

Edmonton.—Farmer-debtors who agree with their creditors to pay on a third-crop basis or some other fraction must fulfil their promises or run the risk of being punishable for theft, and any orders given in future for debt adjustment on that basis must be obeyed at the risk of bankruptcy proceedings, it was stated by Mr. Justice A. F. Ewing at a sitting of the review board under the Farmers' Creditors' Arrangement Act.

Several cases have been before the board, it has developed, in which the debtor has been shown to have failed in whole or in part to live up to his contract in this respect, and the chairman therefore felt it necessary to warn that the "dishonest practice" must be stopped.

Maintenance of confidence in debtors' integrity is absolutely indispensable, he said, whatever their circumstances may be.

Relief Appropriations

Additional Advance Of \$1,250,000 For Saskatchewan

Ottawa.—An additional advance of \$1,250,000 for relief assistance in the drought areas of Saskatchewan was provided for by an order-in-council dated Jan. 22, and tabled in the House of Commons. The advance was made on the report of the federal administrator, dated Jan. 17, that additional assistance was needed.

An order-in-council passed Jan. 22, provided an appropriation of \$75,000 for relief to permanent residents of the United Farmers of Alberta.

In the public works appropriations amounting to \$13,024,050, public buildings in Nova Scotia will be erected or repaired to the extent of \$129,000, while \$520,700 will be spent in that province for harbors and rivers.

Prince Edward Island receives \$6,500 for public buildings and \$67,000 for harbors and rivers. New Brunswick's portions are \$112,000 and \$381,200; Quebec, \$258,400 and \$174,500; Ontario, \$599,200 and \$880,500; Manitoba, \$1,500 and \$49,500. Saskatchewan's public buildings have an appropriation of \$83,000 and Alberta, \$72,500. The two last-named share \$64,500 for harbors and named.

In British Columbia \$53,100 is being appropriated for public buildings and \$316,250 for harbors and rivers.

MAY SELL RANCH

Reports from London state that the Prince of Wales is considering the sale of his ranch in Alberta.

Prince of Wales is considering the sale of his ranch in Alberta. Cost of maintenance and the increasing pressure of official duties were said to have caused him to consider the matter.

Will Renew Loan

Federal Advance To Saskatchewan To Be Renewed For Year

Ottawa.—A loan of \$500,000 made by the Dominion treasury to Saskatchewan Jan. 24, 1934, maturing next Jan. 30, will be renewed for one year, the province depositing new 4½ per cent. treasury bills with the federal government and paying the interest due on those maturing, it was stated in an order-in-council passed Jan. 22, and tabled in the House of Commons.

An additional order-in-council also tabled stated the federal government would accept treasury bills for interest of \$65,968 due the Dominion on treasury bills already deposited by the province in connection with advances made.

Would Put Farm Workers On Dole

London.—A unanimous report is being submitted to the cabinet, recommending that 750,000 British farm workers be brought under the dole. The report is the work of a statutory committee established under the Unemployment Insurance Act of 1934 and specifically charged with the task of making proposals on insurance against unemployment of agricultural workers. Sir William Beveridge is the chairman.

Bandit Leader Killed

Wuhu, Anhwei Province, China.—The leader of the Communist bandits who murdered Mr. and Mrs. John C. Stam, United States missionaries, paid for the crime with his life, according to word received here from South Anhwei. The leader, the report said, whose name was Ching Welchow, was shot within the past two weeks by National government troops who had been attempting to drive the Reds from the district.

KING AND QUEEN OF THE BELGIANS ON HOLIDAY

Here we see King Leopold and Queen Astrid of Belgium setting out on a skiing expedition at St. Moritz, Switzerland. The King and Queen are very proficient in the art of skiing and greatly enjoy the winter sports.

Will Make Report Soon

Mass Buying Commission Attempting To Finish Its Evidence

Ottawa.—The royal commission on mass buying is attempting to finish its evidence and report to the house as soon as possible, Premier R. B. Bennett announced in the House of Commons. It would not be proper, he said, for the government to attempt to influence the commission.

Liberal leader Mackenzie King introduced the question, asking when the commission would report. It would be a good thing, if the report was ready and legislation introduced as soon as possible.

The prime minister said he agreed it would be beneficial if legislation was introduced soon, but the government did not believe it should interfere with the commission. He had been informed the commission was expediting its work.

Industrial Technique

Publicity Campaign To Be Carried On By United Farmers Of Alberta

Calgary.—Designed to show the advance of industrial technique and the development of co-operative marketing and local organizations will be carried on in a large way by the United Farmers of Alberta.

All methods of publicity and communication will be used to sponsor the spread of co-operative knowledge.

Plans for the campaign have been sanctioned by the U.F.A. executive board, which has been in session here.

J. K. Sutherland, Hanna; Geo. E. Church, Elzevir, and J. E. Brown, Castor, have been elected board members, and J. K. Sutherland has been appointed a member of the co-operative committee.

Western Canada Fairs

Officers Are Elected At Annual Meeting Held In Winnipeg

Winnipeg—Irwin Dean, Estevan, Sask., was elected president of the Western Canada Fairs Association at its annual meeting here.

J. R. Guiney, Dauphin, Man., was elected first vice-president; H. F. Hedley, Melfort, Saskatchewan, second vice-president; S. Heeckert, Vermillion, Alta., third vice-president, and Keith Stewart, Portage la Prairie, Man., secretary-treasurer.

Quota Will Be Uniform

THRONE SPEECH PASSES HOUSE WITHOUT DEBATE

Ottawa.—For the first time in years, the address in reply to the speech from the throne passed without opposition in the House of Commons. Liberals, Progressives and Conservatives joined in thunderous unison when Speaker James Bowman put the motion late in the afternoon.

It would have passed earlier except that three members of the Progressive group took the floor in succession, making attacks on the capitalistic system and warning the government that, while reform legislation was welcomed, no country could be happy and prosperous without socializing the means of production.

Liberals and Progressives withdrew from the debate, the Liberals for the second day in a row, their reason being to speed up the administration's reform legislation. The house turned to a resolution sponsored by T. L. Church (Cons., Toronto East), urging a national housing and building scheme.

Interest rates on mortgages and building loans should be reduced, Mr. Church said, as he continued his speech. Restrictions imposed on the activities of the federal government by the British North America Act should be respected, said Mr. Church.

There was nothing, however, to prevent the federal authority granting money to assist local authorities in a building activity and to lay down standards for the buildings to be erected and rules for method of expenditure. The project should be carried out by local authorities as the creation of a national housing commission would only be a waste of time and effort.

George Coote, United Farmer member for Macleod, said he favored the Church motion, referring to the fact he sponsored a similar one in 1932 and later. Only five per cent of the farm houses in Canada had bath rooms with running water, said Mr. Coote.

Ontario's New Policy Governing Food Allowance To Be Relieved

Toronto.—Uniform food allowances will go into effect throughout Ontario immediately as part of a new government policy, Hon. David A. Croll, minister of public welfare, announced.

The policy is designed to eliminate claims of discrimination from any municipality.

In 90 per cent of the municipalities, Mr. Croll said, the change means an increase in food allowances, if the municipality wishes it, and is willing to contribute proportionately. In a few places it means reductions, among them Toronto township.

"This means," Mr. Croll said in his statement about the new policy, "that a family of four will receive food to the value of \$5.25 a week. We think that adequate, and our scheme is scientifically determined by current prices. You don't have to be any kind of expert but a housekeeper to realize that the figure is fair. In addition, they are permitted to earn beyond deductions, up to one-third of the monthly food allowance."

Warmer At High Altitudes

Edmonton Aviator Notes Change In Temperature As He Soars Aloft

Edmonton—It was 10 below zero when Pilot North Sawle took off from the city airport here on Jan. 24 and 30 above when he reached the height of 3,000 feet. He was making a weather observation flight.

The slate of directors proposed by the Canadian chamber of commerce carried the day as every director elected was on the slate.

Directors attending board meetings of the bank in Ottawa will receive fees of \$150 for each meeting, in addition to traveling expenses. Agreement on this scale was reached unanimously at the general meeting of the bank's shareholders while scrutineers were examining the ballots to ascertain the result of voting to select seven directors. One director will be named to sit with the executive board and his fee was fixed at \$50 per meeting.

The directors are required to meet at least four times a year and the executive board, composed of the governor, deputy governor, the deputy minister of finance and the executive member of the board, will meet at least once each week, maximum total fees are fixed by statute at \$20,000 per year.

Coal Drivers Strike

Fargo, N.D.—With the mercury around 20 below zero, the coal supply of Fargo and Moorhead was threatened when upward of 300 truck-drivers walked out on strike. Police were protecting deliveries "where the need was imperative." Union recognition, seniority rights, organization of a board of arbitration and reinstatement of two truck drivers discharged allegedly for union activities are demanded by the strikers.

WEEK END SPECIALS

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Train service to the Pacific coast is again back to normal.

Miss Gladys Webster was down from Michel Saturday, on a visit to Miss Chardon.

Mrs. W. J. Bartlett returned last week end from a month's visit at Calgary and Crossfield.

Mrs. Steeves has been confined to her home for some days, suffering as the result of a recent fall.

Joan, (saying prayers): "And you needn't bother about making me a good girl now, 'cos I'm a Girl Guide."

Blairmore is the only town in Alberta that did not turn out a respectable-looking financial statement.

Robert Gray, local Plunkett & Savage manager, returned last Saturday from a business visit to Winnipeg.

The antithesis of "early to bed and early to rise" maxim is now: "Late to bed and blended rays, make gay dogs have bleary eyes."

The Blairmore hockey stars tied at 7-7 at Medicine Hat in a league game on Saturday night, and 7-7 with lethbridge in an exhibition game on Sunday afternoon.

The marriage of James Jones, of Balsac, to Miss Ethel Hole, daughter of Mr. and Mrs. George Hole, of Pincher Creek, took place at Calgary January the 23rd.

Mr. and Mrs. W. J. Stokes of Calmar and Mr. and Mrs. D. A. Slingsby of Lethbridge recently celebrated the 42nd anniversary of their double wedding.

Arthur Cuyler, well known commercial traveller, died suddenly at Saskatoon on Friday last. He was a brother of T. W. Cuyler, of Calgary, a frequent business visitor to this district.

Notices are posted, declaring Monday next, from 11 a.m. to 12 noon, as nomination day for mayor, councillors and school trustees. Very little interest in the matter has so far been manifested.

The Maritime Oddfellows' home at Pictou, Nova Scotia, has received \$500 from the estate of the late J. MacKinnon, of Charlottetown. MacKinnon had acted as grand secretary of the Maritimes grand lodge for twenty-five years.

Ontario lawyers, appointed King's counsel previous to July first, 1934, who have not taken out their letters patent, must surrender the title, according to the proclamation of an order-in-council in the Ontario Gazette.

Mr. and Mrs. H. T. Halliwell returned to Coleman the early part of the week from Calgary, where they had been in attendance at the annual meeting of the Alberta Division of the Canadian Weekly Newspapers Association.

With \$10,000 surplus invested in savings certificates during the past year or two, will his worship the mayor or please explain how he found it necessary to place a penalty upon the shoulders of a few of those doing business here?

LeRoy James Ferguson, of Vulcan, died Wednesday of last week in a Calgary hospital, aged 43. He was born at Bozeman, Montana, and came to Canada in 1910. In 1918 he married Miss Estella Marie, daughter of the late Mr. and Mrs. A. Mutz. He was a member of Vulcan Elks' Lodge. Besides his wife, he is survived by three brothers, two in California and one at Black Diamond; and two sisters, one at Black Diamond and the other at Hanna.

TWO-ROOM SHACK FOR RENT. At the Enterprise.

The special Donkobor prison at Pier Island, B.C., will likely be closed shortly.

Mr. Buck, of the provincial relief department, Edmonton, spent several days in town last week.

Mr. J. E. Upton, local tailor, spent several days at Corbin during the week.

Collections were taken throughout this district on Saturday last toward the Political Prisoners' fund.

The town of Vulcan's financial statement shows a surplus of \$6,000 over all liabilities.

Coleman's financial statements and auditor's reports were not printed by the Reds, but in good legible print in the Coleman Journal.

We are not the only ratepayer who failed to receive or see a copy of the town and school district's annual financial statements.

We searched all over this section of the universe on Saturday night last for a compass, with which to decide which direction a very prominent citizen was trying to negotiate at 11.30.

"Rabbie" Burns regrets sincerely that stormy weather should have prevented his anniversary being celebrated this year in the Crows' Nest Pass.

J. G. Norstrand, proprietor of the Whitehouse hotel at Drumheller, complained to the city council of not getting police protection, so far as his hotel premises were concerned.

Three brothers, Fred, Clayton and Norman Courtney, aged respectively 20, 24 and 26, were drowned when a sea swamped their fishing boat near Rose Blanche, Newfoundland.

Tim Buck, Communist leader recently released from Kingston penitentiary, will seek a seat in the House of Commons through the riding of north Winnipeg.

The Town of Coleman collected \$2,104.41 more than was paid out in 1934. Blairmore's figures are so much the reverse, it seems unfair to publish them.

Mrs. Mary Jane Davis, mother of Joseph Davis, former Blairmore electrician, passed away at Macleod on January 16th. She is survived by six sons. Her husband predeceased her in 1918 and a daughter in 1924.

Miss Isa Neuman has returned to duty at the local hospital, after spending a vacation with relatives at Pincher Creek. During her absence, she was relieved by Miss A. Hornquist, R.N.
